

4 Easy Steps to Healthier Schools

The CDC states that the most important thing you can do to stay healthy is to keep your hands clean. By following these four easy steps and using sanitizing products from Best Sanitizers, your school can dramatically reduce the spread of germs and keep your school environment healthier!

1. Hand Sanitizer Stations
2. Touchless Dispensers
3. Surface Wipes & Disinfectants
4. Early Education

Smart
San[®]
Hand Sanitizers

- Kills 99.999% of germs in 15 seconds
- Formulated with moisturizers to keep hands soft & healthy
- Atomized spray saturates nails & cuticles
- 71% Ethanol formula
- Touchless dispensers & hand pumps

Studies Show...

that when hand sanitizers are introduced into the classroom, along with a hand hygiene education program, schools can experience a 20%-50% reduction in absenteeism due to illness, which increases the benefits of higher attendance!

1. Hand Sanitizer Stations

Place them in:

- Classrooms
- Cafeteria*
- Teacher's lounge
- Offices • Nurse's station
- Gym / multi-purpose rooms

When to sanitize:

- Upon entering the classroom each morning
- Before snacks / lunch
- After using the restroom
- After coughing or sneezing
- More frequently during cold or flu outbreaks

*Smart-San unscented meets FDA regulations for use in food service areas and is certified Kosher/Pareve.

2. Touchless Dispensers

Touchless dispensers eliminate the risk of cross-contamination that can come from students touching the same dispenser. Best Sanitizers has a variety of touchless dispensers to choose from, as well as, manual dispensers for less critical areas of your school. Our VersaClenz All-In-One Hand Hygiene System gives you access to our entire line of sprays, foams, liquids, gels, lotions, soaps and sanitizers. One dispenser does it all!

Alpet D2 Surface Sanitizer One Quart Spray Bottle SS10009

4. Early Education

Early education about hand sanitation can build the foundation for a lifetime of good hygiene. Best Sanitizers offers instructional signage for hand sanitizing stations, educational posters that can be downloaded in PDF form and PowerPoint™ CD presentations. We also recommend the "It's a Snap" program materials offered FREE at www.itsasnap.org (includes a planning checklist, statistics and curriculum for teaching kids about hand hygiene).
