

# Healthy Office

the power to stay healthy is in your hands

A complete program for improving workplace wellness by dramatically reducing germs in office environments

**BESTSANITIZERSINC.**

# The Healthy Office Program

4 steps to dramatically reduce germs in the workplace

- 1 Smart-San™ Hand Sanitizer** - Hand sanitizers have been shown to reduce absenteeism due to illness up to 51%. More than 90% of bacteria on the hands are found underneath fingernails and around cuticles.
- 2 Go Touchless!** - Touchless, automatic hand sanitizer dispensers placed in common areas of the office can help reduce the spread of germs.
- 3 Surfaces** - Germs can survive on workplace surfaces for more than 72 hours. Clean desktops, phones, keypads, etc. with Smart-San All Purpose Wipes. Use Alpet D2 to sanitize and disinfect any non-porous surface.
- 4 Educational Materials** - Placards, posters and corporate communications templates are available to kick off your Healthy Office Program and educate employees.

## Smart-San Hand Sanitizer Stations

Smart-San™ is an advanced liquid hand sanitizer that kills 99.999% of germs. Smart-San is *sprayed* onto the hands and will saturate under the nails and cuticles where most germs tend to reside.

80% of infections are spread through the hands. If you touch a surface that is tainted with germs, and then touch your mouth, eyes or nose before washing your hands, you can become ill.

The CDC (Centers for Disease Control) recommends the use of alcohol-based hand sanitizers as an effective method of hand hygiene, as long as hands are not visibly soiled.

**SANiSHOT - MD10016  
- MD10018**  
Manual Sanitizer Dispenser

**Wrist-Activated  
Dispenser - MD10010**  
Manual Sanitizer Dispenser

Touchless Sanitizer  
Dispenser

**SANiSHOT - AD10042**  
Touchless Sanitizer  
Dispenser

**Floor Stand - KTS1001**  
Includes stand and  
educational sign.  
Dispenser sold separately.

- 71% ethanol formula
- kills 99.999% of germs in 15 seconds
- enhanced with natural emollients to soften skin
- advanced liquid spray formula
- automatic touchless dispensers reduce cross-contamination

## Place hand sanitizing stations in these key areas:

- break rooms
- outside of restrooms
- cubicle areas
- conference rooms
- cafeterias
- entry & reception areas
- mail rooms
- gyms

## When to Sanitize

- upon arriving at work
- before eating
- when returning from lunch
- after using the restroom
- sanitize more frequently when feeling unwell, or when working around sick co-workers

- SMA0048U • Smart-San 48x2oz bottles – *Fragrance-Free*
- SMA0015U • Smart-San 12x 500 mL bottles – *Fragrance-Free*  
\*requires JPP10007S pump
- SMA0016U • Smart-San 6x1 liter bottles - *Fragrance-Free*  
\*requires JPP10007 pump for stand alone use or...  
\*can be used with AD10020 or MD10010 dispensers
- SMA0016 • Smart-San 6x1 liter bottles - *Fresh & Clean Fragrance*

\*can be used with AD10020 or MD10010 dispensers
- SMA0017U • Smart-San 6x1000mL bags- *Fragrance-Free*  
\*must be used with MD10016/MD10018 dispensers
- SMA0020U • Smart-San 6x1 liter bottles - *Fragrance-Free*  
\*must be used with AD10042 dispenser
- SMA0042U • Smart-San 4x2 liter bottles - *Fragrance-Free*  
\*requires KT10060 pumpkit (4x2L case includes one pumpkit)

## Smart-San Pre-Saturated Wiping Systems

**Smart-San Pre-Saturated Wiping Systems** combine the power of our cleaning formulas with the convenience of disposable wipes. Smart-San wipe canisters can be mounted to a wall or portable stand (KTS1000 – not shown) with a lockable bracket. Each canister contains 160 durable, polyester wipes and features a spring-loaded flip-top to prevent drying of wipes. **Smart-San All-Purpose Wipes** are great for both hands and surfaces with emollients built in to help keep hands feeling soft and moisturized. For a more aggressive cleaning wipe to be used on surfaces only, use **Smart-San Surface Cleaning Wipes**.

## Alpet D2 Surface Sanitizer/Disinfectant

### Where the germs are... Do you ever eat at your desk?

A University of Arizona microbiologist led a study that revealed bacteria counts on typical surfaces in office environments. He found that there were 400 times the number of germs on office desks than found on toilet seats!

#### Top 5 areas with germ counts:

- Phone: 25,127 microbes per sq. inch
- Desk: 20,961 microbes per sq. inch
- Keyboard: 3,295 microbes per sq. inch
- Mouse: 1,676 microbes per sq. inch
- Fax Machine: 301 microbes per sq. inch

- kills 99.999% of bacteria and viruses, including TB, HIV, MSRA, VRA and Norovirus
- ready-to-use / no-rinse required
- non-toxic alcohol formula
- non-corrosive
- works fast and evaporates quickly
- ideal for large surfaces
- two-year shelf life

# Stainless Steel Industrial Dispensing Systems

Best Sanitizers' line of industrial strength dispensing systems are built to last in any setting. Built with heavy duty stainless steel, these dispensers are suitable for wet or dry environments. With foot or wrist-activated options, the hands-free concept can be promoted anywhere. The 1-2 Knockout and the Wall-Mounted EZ Step will hold a 1 gallon bottle of Alpet E3 Plus Hand Sanitizer, Alpet E3 Hand Sanitizer or Alpet E2 Sanitizing Foam Soap. The Portable EZ Step will dispense Alpet E3 Plus or Alpet E3.

MD10006 • 1-2 Knockout Wrist Activated Dispenser – Hand Sanitizer  
includes KT10011 Atomizing Gallon Pump Kit

MD10003 • 1-2 Knockout Wrist Activated Dispenser – Foaming Soap  
includes KTFS1001 Foaming Gallon Pump Kit

MD10012 • EZ Step Portable Foot Activated Dispenser – Hand Sanitizer  
includes KT10011 Atomizing Gallon Pump Kit

MD10105 • EZ Step Wall-Mounted, Foot Activated Dispenser – Hand Sanitizer  
includes KT10011 Atomizing Gallon Pump Kit

MD10110 • EZ Step Wall-Mounted, Foot Activated Dispenser – Foaming Soap  
includes KTFS1001 Foaming Gallon Pump Kit

Please use of the following Sanitizer or Foam Soap gallon refills with the  
above dispensing systems:

SA10014 • Alpet E3 Plus Hand Sanitizer - 4x1 gallon

SA10001 • Alpet E3 Hand Sanitizer - 4x1 gallon

SO10025 • Alpet E2 Sanitizing Foam Soap - 4x1 gallon

Dispensers shown (left to right):  
1-2 Knockout, Wall-Mounted EZ Step,  
Portable EZ Step

## Healthy Office Testimonials

*"As is typical in any call center, workstations are globally used and (germs) can run rampant. Given the critical nature of our work, we were seeking a way to offer our employees some added protection. We purchased several AutoMyst units with Smart-San Hand Sanitizer. Our employees are thrilled with the added benefit and use the product religiously. We highly recommend Best Sanitizers. Their personnel were very responsive to our needs and their products far surpassed our expectations."*

**Gina Knepp**  
Police Manager, Communications Division  
Sacramento City Police Department

*"The management team at our facility is very happy with Smart-San Hand Sanitizers and our employees love them. They especially like the automated feature. They have commented on how their hands do not feel dry or itchy after using Smart-San. The decision to purchase your products was a "no brainer" for our Safety Team. The employees are out less due to sickness... our production doesn't decline due to worker illness... the employees appreciate the fact that we have invested in their overall safety and well being (which is most important)."*

**JB Brown**  
Supervisor  
Pacific Gas & Electric

*"I am the infection control nurse at a LTC facility in Northern Va. Our purchasing department supplied us with Alpet D2 last fall with claims of it being effective against Norovirus. We began a daily wipe down using this product for all high touch areas in our facility. We have avoided the virus while other facilities around us suffered thru it. I am a firm believer in its effect on Norovirus."*

**Elaine Manton**  
Infection Control Nurse
