

# SAFETY DATA SHEET

## 1. IDENTIFICATION

### Product identifier

**Product Name** Hydrochloric Acid, 10% v/v

### Other means of identification

Manufacturer number: HA6310-B

### Recommended Uses

Extra Strength degreaser

### Distributor Address

**Best Sanitizers, Inc.**  
PO Box 1360  
Penn Valley, CA 95946  
Toll Free: 888-225-3267

### Emergency telephone number

**Emergency Phone Numbers** Aquaphoenix Scientific 1-800-255-3924

## 2. HAZARDS IDENTIFICATION

### Classification

|  |             |
|--|-------------|
| Specific target organ toxicity following single exposure | Category 3  |
| Serious eye damage/irritation                            | Category 2A |
| Skin irritant  | Category 2  |
| Corrosive to metals                                      | Category 1  |

|   |                  |                       |                          |
|---|------------------|-----------------------|--------------------------|
| <b>Signal word</b>  | <b>Warning</b>   |                       |                          |
| <b>Hazard statements</b><br>May be corrosive to metals.<br>Causes serious eye irritation.<br>Causes skin irritation.<br>May cause respiratory irritation. |                  |                       |                          |
|    |                  |                       |                          |
| <b>Appearance</b>   | Aqueous solution | <b>Physical State</b> | Liquid                   |
|   |                  |                       | <b>Odor</b> Pungent odor |

**Precautionary Statements - Prevention**

If medical advice is needed, have product container or label at hand.  
 Keep out of reach of children.  
 Read label before use. Do not breathe dust/fume/gas/mist/vapors/spray.  
 Wash skin thoroughly after handling.  
 Wear protective gloves/protective clothing/eye protection/face protection.  
 Do not eat, drink or smoke when using this product.  
 Avoid breathing dust/fume/gas/mist/vapors/spray.  
 Use only outdoors or in a well-ventilated area.  
 Keep only in original container.

**Precautionary Statements - Response**

F ON SKIN (or hair): Remove/Takeoff immediately all contaminated clothing. If skin irritation occurs: Get medical attention.  
 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
 IF SWALLOWED: Rinse mouth. DO NOT induce vomiting. Call a POISON CENTER or doctor if you feel unwell.  
 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Specific treatment (see Section 4).

**Precautionary Statements - Storage**

In case of fire: Use media appropriate for extinction. Store locked up.  
 Store in a well-ventilated place. Store in corrosive resistant stainless steel container with a resistant inner liner.

**Precautionary Statements - Disposal**

Dispose of contents/container according to local, regional, national, territorial, provincial, and international regulation.

**Hazards not otherwise classified (HNOC)**

None.

**Other Information**

No ingredients of Unknown Acute Toxicity.

**3. COMPOSITION/INFORMATION ON INGREDIENTS**

| Chemical Name          | CAS No.   | Weight % | Trade Secret |
|------------------------|-----------|----------|--------------|
| Hydrochloric Acid, ACS | 7647-01-0 | 11.8     |              |
| Water                  | 7732-18-5 | 88.2     |              |

\* The exact percentage (concentration) of composition has been withheld as a trade secret.

**4. FIRST AID MEASURES**

**First aid measures**

**Eye Contact** Hold eye(s) open and rinse slowly and gently with water for 15-20 minutes. Remove

contact lenses, if present, after first 5 minutes, then continue rinsing eye(s). Get medical advice/attention.

**Skin Contact**

Wash affected area with soap and water. Rinse/flush exposed skin gently using water for 15-20 minutes. Get medical attention if irritation persists or if concerned.

**Inhalation**

Remove to fresh air. Seek immediate medical attention if discomfort or irritation persists.

**Ingestion**

Rinse mouth thoroughly. Do NOT induce vomiting.

Drink sips of water.

Seek medical attention if irritation, discomfort or vomiting persists.

## **Most important symptoms and effects, both acute and delayed**

### **Most Important Symptoms and Effects**

Inhalation may cause irritation to nose and upper respiratory tract, ulceration, coughing, chest tightness and shortness of breath. Higher concentrations cause tachypnoea, pulmonary edema and suffocation. Ingestion may cause corrosion of lips, mouth, esophagus and stomach, dysphagia and vomiting. Pain, eye, ulceration, conjunctival irritation, cataracts and glaucoma may occur following eye exposure. Erythema and skin irritation, as well as chemical burns to skin and mucous membranes may arise following skin exposure. Potential sequelae following ingestion of hydrochloric acid include perforation, scarring of the esophagus or stomach obstruction. In some cases, RADS may develop. Respiratory symptoms may take up to 36 hours to develop.

### **Indication of any immediate medical attention and special treatment needed**

If seeking medical attention, provide SDS document to physician.

## **5. FIRE-FIGHTING MEASURES**

### **Suitable Extinguishing Media**

If in laboratory setting, follow laboratory fire suppression procedures. Use appropriate suppression agents for adjacent combustible materials or sources of ignition.

### **Unsuitable Extinguishing Media**

None.

### **Specific Hazards Arising from the Chemical**

Combustion products may include carbon oxides or other toxic vapors. Hydrogen chloride gas.

### **Protective equipment and precautions for firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can produce poisoning chlorine. Hydrochloric acid reacts also with many organic materials with liberation of heat.

## **6. ACCIDENTAL RELEASE MEASURES**

### **Personal precautions, protective equipment and emergency procedures**

#### **Personal Precautions**

Use personal protection recommended in Section 8. Ensure adequate ventilation, especially in confined areas. Keep unprotected persons away. Keep away from ignition sources. Protect from heat. Contained spilled material by diking or using inert absorbent.

#### **Environmental precautions**

#### **Environmental Precautions**

Prevent entry into waterways, sewers, basements or confined areas. See Section 12 for additional ecological information.

### **Methods and material for containment and cleaning up**

#### **Methods for Containment**

Prevent further leakage or spillage if safe to do so. Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (See Section 13).

#### **Methods for Cleaning Up**

Use clean non-sparking tools to collect absorbed material. May be ignited by friction, heat, sparks or flames. Collect spillage. Soak up with inert absorbent material. Sweep up and shovel into suitable containers for disposal. Following product recovery, flush area with water. Place in properly labeled containers. If in a laboratory setting, follow Chemical Hygiene Plan procedures.

## **7. HANDLING AND STORAGE**

### **Precautions for safe handling**

#### **Handling**

Prevent formation of aerosols. If opening metal containers, use non-sparking tools because of the possibility of hydrogen gas being present. Wash hands after handling. Avoid contact with skin, eyes and clothing. Do not eat, drink or smoke when using this product. Use personal protection recommended in Section 8. When handling hydrochloric acid avoid contact with metals and organic matters. Never use hot water and never add water to the acid!

### Conditions for safe storage, including any incompatibilities

#### Storage Conditions/ Incompatible materials

Keep Containers tightly closed in a dry, cool and well-ventilated place. Avoid storage near extreme heat, ignition sources or open flame. Keep away from foodstuffs. Store away from oxidizing agents. Protect from freezing and physical damage. Containers for hydrochloric acid must be made from corrosion resistant materials: glass, polyethylene, polypropylene, polyvinyl chloride, carbon steel lined with rubber or ebonite.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Control parameters

#### Exposure Guidelines

| Chemical Name                  | ACGIH TLV     | OSHA PEL                        | NIOSH IDLH                                    |
|--------------------------------|---------------|---------------------------------|---|
| Hydrochloric Acid<br>7647-01-0 | 2 ppm Ceiling | TWA 7 mg/m <sup>3</sup> Ceiling | 5 ppm Ceiling<br>7 mg/m <sup>3</sup> Ceiling. |

ACGIH TLV: American Conference of Governmental Industrial Hygienists - Threshold Limit Value. OSHA PEL: Occupational Safety and Health Administration - Permissible Exposure Limits. NIOSH IDLH: Immediately Dangerous to Life or Health.

### Appropriate engineering controls

#### Engineering Controls

Emergency eyewash fountains and safety showers should be available in the immediate vicinity of use/handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor or mists below the applicable workplace exposure limits.

### Individual protection measures, such as personal protective equipment

#### Eye/Face Protection

Wear safety glasses with side shields (or goggles).

#### Skin and Body Protection

Wear impermeable and resistant to the product/ substance/preparation protective gloves. Selection of glove material on consideration of the penetration times, rates of diffusion and degradation.

#### Respiratory Protection

If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

#### Hygiene Measures

The usual precautionary measures are to be adhered to when handling chemicals. Keep away from food, beverages and feed sources. Immediately remove all soiled and contaminated clothing. Wash face, hands and any exposed skin thoroughly after handling. Wash contaminated clothing and shoes before reuse. Do not Eat, Drink or Smoke when using this product. Do not inhale gases/fumes/dust/mist/vapors/aerosols. Avoid contact with the eyes and skin.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### Physical and Chemical Properties

#### Formula

See Section 3

#### Physical State

Liquid

#### Appearance

Aqueous solution

#### Color

Clear

#### Property

#### pH

#### Values

< 1

#### Odor

Pungent odor

#### Odor Threshold

0.3 - 14.9 mg/m<sup>3</sup>

#### Remarks/ Method

#### Melting/freezing point

-17.14 °C

None known

|                                      |                           |            |
|--------------------------------------|---------------------------|------------|
| <b>Boiling point / boiling range</b> | No information available. | None known |
| <b>Flash Point</b>                   | Not applicable            | N/A        |
| <b>Evaporation rate</b>              | > 1.00                    | None known |
| <b>Flammability (solid, gas)</b>     | Noncombustible            | None known |
| <b>Flammability Limits in Air</b>    |                           |            |
| <b>Upper flammability limit</b>      | Nonexplosive              | None known |
| <b>Lower flammability limit</b>      | Nonexplosive              | None known |
| <b>Vapor pressure</b>                | No data available         | None known |
| <b>Vapor density</b>                 | No data available         | None known |
| <b>Specific Gravity</b>              | Not determined            | None known |
| <b>Water Solubility</b>              | Soluble in water.         | None known |
| <b>Solubility in other solvents</b>  | No data available         | None known |
| <b>Partition coefficient:</b>        | No data available         | None known |
| <b>Autoignition temperature</b>      | No data available         | None known |
| <b>Decomposition temperature</b>     | No data available         | None known |
| <b>Kinematic viscosity</b>           | No data available         | None known |
| <b>Dynamic viscosity</b>             | No data available         | None known |

## 10. STABILITY AND REACTIVITY

### Reactivity

Reacts violently with bases and is corrosive.

### Chemical stability

No decomposition if used and stored according to specifications.

### Possibility of Hazardous Reactions

Reacts violently with oxidants forming toxic gas (chlorine). Attacks many metals in the presence of water forming flammable/explosive gas (hydrogen).

### Conditions to avoid

Excess heat. Incompatible products.

### Incompatible materials

Metal oxides, formaldehyde. Strong bases. Most metals. Strong oxidizing agents. Reducing agents. Alkalis, cyanides, sulfides. Sulfites.

### Hazardous Decomposition Products

Carbon oxides (CO, CO<sub>2</sub>). Fumes of hydrogen chloride and hydrogen in contact with metals. Oxides of carbon.

## 11. TOXICOLOGICAL INFORMATION

**Inhalation**            Hydrochloric acid

### Information on toxicological effects

|                        |                          |
|------------------------|--------------------------|
| Sensitization          | No Information Available |
| Germ cell mutagenicity | No Information Available |
| Carcinogenicity        | IARC: Group 3            |
| Reproductive toxicity  | No Information Available |

## 12. Ecological Data

### Ecotoxicity

None.

### Persistence and Degradability

Readily Biodegradable.

### Bioaccumulation

Not Bioaccumulative.

### Mobility

Aqueous solution has high mobility in soil.

### Other adverse effects

No information available.

### 13. DISPOSAL CONSIDERATIONS

**Disposal methods**

**Disposal of wastes**

Cover spill with soda ash or calcium carbonate. Mix and add water to form slurry. Decant to drain. Treat the solid residue as normal refuse. All chemical waste generators must determine whether a discarded chemical is classified as hazardous waste. Disposal should be in accordance with applicable regional, national and local laws and regulations. Do not dispose together with household garbage.

### 14. TRANSPORT INFORMATION

**DOT**

UN ID Number UN1789  
UN proper shipping name HYDROCHLORIC ACID  
Hazard Class 8  
Packing Group II

### 15. REGULATORY INFORMATION

**Chemical Inventories**

TSCA Complies  
DSL/NDSL Complies  
TSCA - United States Toxic Substances Control Act Section 8(b) Inventory  
DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List

**U.S. Federal Regulations**

**SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization of 1986 (SARA). 7647-01-0 Hydrochloric Acid.

**SARA 311/312 Hazard Categories**

Acute Health Hazard Yes

**CERCLA**

7647-01-0 Hydrochloric Acid 5000

**US State Regulations**

**California Proposition 65**

None of the ingredients is listed.
